Subject: RE: Guidance on State-lead Memo for Proposed NPL sites

Thanks, Mark. I have the Superfund Alternative Approach guidance you sent me in regards to CFAC, but for some reason I thought there was guidance on the different permutation at Livingston. At Livingston, the State is requiring cleanup under CECRA (State Superfund), and EPA has not finalized NPL listing on that basis. Roger has requested that we make that decision formal through some sort of memo, and I was interested to see what sort of guidance EPA has on this situation. E.g., are there requirements that must be included in the State's legal agreement with the PRP? What needs to go in the memo?

The DEQ project officer (Aimee Reynolds) and I are meeting to talk about this in a little over a week, so any help you can provide would be much appreciated.

Thanks,

Subject: FW: Guidance on State-lead Memo for Proposed NPL sites

Katherine,
Roger Hoogerheide forwarded the request below. Can you shed any light on the name of the guidance or the year it was issued? There's so much CERCLA guidance out there I'm not sure quite where to begin.
Mark

Mark, Can you provide Katherine (state attorney at BN Livingston Proposed NPL Site) with right guidance?

Subject: Guidance on State-lead Memo for Proposed NPL sites

Roger,

Aimee and I have a meeting scheduled to discuss your request at the Burlington Northern Livingston Shop Complex proposed NPL site. I thought I had the guidance related to the State committing to take the lead for proposed NPL sites,

but it looks like I only have the Superfund Alternative Approach guidance. With the website changes, I cannot seem to find the right guidance. Do you mind emailing it to me?

Thanks,
